

Template for service evaluation

Service: xxx
 Service Provider: xxx

First evaluation Round

No.	Category	Criteria	Criteria type	Points	Initial Service Portfolio			Service Selection Round
					Weighing	Weighed points	Max. points	
1	Overhead	Service is provided for free	A					1
2	Overhead	Service is provided by a Helmholtz center	A					1
9	Technical	Services are capable for Helmholtz cloud provisioning	A					1
3	Overhead	Service explicitly supports scientists/ their processes	B		0,56	0	2,24	1
4	Overhead	Broad range of centers is interested in using the service	B		0,81	0	3,24	1
5	Overhead	Broad range of communities/ user groups is interested in using the service	B		0,56	0	2,24	1
8	Overhead	Service is named in the HIFIS proposal	I					1
19	Technical	Service is open source	I					1
					FAILED	0	7,72	

Second evaluation Round

No.	Category	Criteria	Criteria type	Points	Initial Service Portfolio			Service Selection Round
					Weighing	Weighed points	Max. points	
11	Technical	Service uses no proprietary data formats/ interfaces (no vendor lock)	A					2
12	Technical	Service is capable to use Helmholtz AAI	A					2
6	Overhead	Service is ready get integrated into Helmholtz cloud	B		0,81	0	3,24	2
14	Technical	Service may be made available for external users	B		0,67	0	2,68	2
17	Technical	Service has a promising long-term perspective	B		0,50	0	2	2
					FAILED	0	7,92	

Third evaluation Round

No.	Category	Criteria	Criteria type	Points	Initial Service Portfolio			Service Selection Round
					Weighing	Weighed points	Max. points	
10	Technical	Service meets data protection and IT security requirements	A					3
13	Technical	Service supports user deprovisioning	A					3
20	Service Provider	Service provider must be able to provide the service under increased load of Helmholtz users (scalability)	A					3
21	Service Provider	Service provider has policies regarding the access to offered Helmholtz cloud services	A					3
22	Service Provider	Service provider established backup for service data (only applicable for services that store data)	A					3
7	Overhead	Service supports incubator interconnection (all platforms)	B		0,38	0	1,52	3
15	Technical	Service integration is easy to perform	B		0,13	0	0,52	3
16	Technical	User effort to enable the service is as low as possible	B		0,25	0	1	3
18	Technical	Service supports open access APIs etc.	I					3
23	Service Provider	Service providers are equally distributed among the Helmholtz centers	I					3
24	Service Provider	Service provider is certified	I					3

25	Service Provider	Service provider established processes to meet (legal) requirements concerning the deletion of data (data protection relevant)/ storage of data	I		FAILED	<u>0</u>	3,04	3
----	------------------	---	---	--	--------	----------	------	---

Evaluation Summary

	Result	Earned points	Possible points
First Evaluation Round	FAILED	0	7,72
Second Evaluation Round	FAILED	0	7,92
Third Evaluation Round	FAILED	0	3,04
<u>Total weighed points</u>		<u>0</u>	18,68
