HIFIS

Did you know? HIFIS helps your team develop their **research software** skills.

Education. Expert-led training courses on Research Software Engineering.

Consulting. Personalised support to take your software project to the next level.

Toolkit. Helmholtz-wide Codebase and Research Software Directory and its community of practice.

Helmholtz Codebase
Version Control, CI/CD, container and package registries.

Orchestration
Build a complete software workflow with storage and compute.

helmholtz.software
Make your software findable and ready for automated quality checks.

HiDA
One course catalogue to teach them all.

www.hifis.net

Power your research with the cloud built for science.
